

Julie Hawkins

Area 4 Director

City of Springfield Professional Engineer, City of Springfield

Julie Hawkins currently work for the city of Springfield in the storm water public works department. She does plan review and issues permits that are storm water related. She became a member of the Miner Alumni Association Board in 2019 representing the southwest Missouri district. She is looking forward to being a strong presence on the board.

Prior to working for the city of Springfield she previously worked for Olsson and Associates and an HVAC company, Mammoth, that went out of business.

Julie earned two bachelor's of science degrees in civil engineering and architectural engineering graduating in 2006. While in school she was a member of Chi Omega, track and cross-country teams, Omega Sigma, AEI President, Secretary of ASCE, Blue Key President, St. Pats Queen candidate, and homecoming queen candidate.

After graduating in 2006 she moved to California and worked a variety of jobs in both Fresno and Sacramento. She moved to Springfield, MO in 2014.

Julie volunteers on the Missouri Society of Professional Engineers Board of Directors hoping to help with their yearly fundraisers and helping to get more people involved with this group. I am also looking into getting involved with the good dads program here in Springfield, MO and was recently asked to be on the board.

Julie is married to another fellow alumni, Charles Hawkins, ME'06, and they have two children. In her spare time she runs a lot with the Ozark Mountain Ridge Runners Group (OMRR), the Springfield Brew Co Running Group, and has lost her mind and will run her first 50k in November 2021 at the Dogwood Canyon trail run.
