

**Kurt Haslag**

**Vice President**

**Owner/ Principal, Premier Facility Constructors**

---

Kurt is currently a principal at Premier Facility Constructors and founded Premier with a business partner in 2015. In Kurt's role as principal, he focuses on overall company strategy, accounting functions, client relations, and overall project and company management. The company offers comprehensive construction services engineered to team with clients to build the projects they envision. The firm's "cradle to grave" style of construction services includes; pre-construction services, design-build contracting, design-assist contracting, general contracting, conceptual estimating, constructibility reviews, planning and permit procurement, value engineering, scheduling, renovation projects, construction management, building maintenance, in addition to any specific client requests. Premier Facility Constructors' intense client focus, strong project leadership, and honest transparency are what sets the company apart from other construction service providers.

Prior to founding Premier Facility Constructors, Kurt was a project manager at Brinkmann Constructors in the Denver, CO office. As a results-driven project manager, Kurt interacted with project teams and ownership throughout the construction process and worked on multiple project types and of various contract values.

Kurt earned a bachelor's degree in Civil Engineering from Missouri S&T in 2007. Kurt also holds storm water compliance certificates, USACE quality control certification, and LEED BD+C certifications.

In addition to the Miner Alumni Association board of directors, Kurt also serves as leader of the Rocky Mountain section and is a past member of the Young Alumni Council at Missouri S&T. Kurt also volunteers at Broomfield FISH, helping distribute food community members in need.

Kurt lives in Broomfield, CO with his wife, Kate, and their son, Will. He enjoys spending time with family, traveling and exploring the mountains of Colorado.
