

**Rachel Kluesner Jung**

**Vice President**

**Project Management Office Director, Brewer Science**

---

Rachel Jung has been employed at Brewer Science since 2012 and considers herself an Information Technology leader after supporting their Oracle enterprise resource planning implementations since 2012. In 2019, she moved to support the Project Management Office implementation and lead the team in that space. Projects include building expansion, cloud systems implementations and opportunities for solar infrastructure. Rachel began in MAA as an officer in the St. Louis section maintaining their social media presence. In 2012, she moved to the central ozarks section hosting events as the vice president and still maintains that role today. She currently co-leads the engagement committee with Kurt Haslag. She enjoys mentoring students and new graduates as they transition through new opportunities.

Before joining Brewer Science, Rachel was employed by Monsanto, now Bayer, in the Information Technology Global ERP team supporting their systems, applications and products testing activities.

Rachel earned her bachelor's degree in business administration from Fontbonne University in 2006. She is also a Missouri S&T graduate, graduating in fall 2009 with her master's in business administration as well as a graduate certificate in enterprise resource planning. While at Missouri S&T, Rachel was a founding member of the Missouri S&T MBA Association and worked for the biological sciences department's cDNA Resource Center, handling the business side of operations.

Rachel enjoys being engaged in the community and is a member of several community boards. Outside of the workplace, she launched the Uncover Rolla photography project in 2013. She has made an abundance of new friends while exploring the local treasures. Rachel is the proud wife of alumnus, Steven Jung, and proud mother of two boys, two dogs, and two cats.
